“Take 5” Connecting industry with UA students

A **TAKE 5** networking lunch is where a couple of engineers or construction managers from your company host 5 students for lunch on campus at the Arizona Room in the Student Union (buffet lunch, \$12.25 per person). The professionals share about their company and their own career paths, while students can share about what they are learning in class, in extra-curricular activities, and in internships. This can be a great way to raise the name recognition of a company among students and inspire students to the opportunities in the construction industry. We advertise **TAKE 5** and the company lunch hosts by emailing all students in our department and posting flyers in the Civil Engineering Building.

TAKE 5 is usually scheduled on a Friday from 12:00-12:45 PM. Open dates are listed below. If your company is interested in hosting a **TAKE 5** this fall or spring, please let me know.
